

We have done business with IHC for decades, due to their impressive combination of quality service and unique Short Term Major Medical plans. Try this! Calculate the premium for a STMM (10K deductible) and FirstChoice BASIC plan for your next client prospect; the premium is almost always much lower and your commission much higher than with any ACA 'metallic' plan alone. Plus, for hospital confinement, this has the additional advantage of saving your client THOUSANDS in out-of-pocket costs!
